**Primary Entry Routes:** Inhalation, Eye Exposure.

**Target Organs:** Lungs, eyes

#### Acute Effects:

**Inhalation:** May cause upper respiratory tract irritation, coughing and sneezing from dust inhalation.

**Eye:** May cause temporary irritation.

**Skin:** No effects expected.

**Ingestion:** No effects expected. Non-toxic.

**Carcinogenicity:** IARC, NTP, and OSHA do not list ingredients in this product as carcinogens.

**Medical Conditions Aggravated by Long-Term Exposure:** Asthma, bronchitis, emphysema or any other chronic lung diseases.

**Chronic Effects:** Prolonged and repeated exposure to excessive concentrations of this product's dust or any nuisance dust can cause chronic pulmonary disease.

### Section 4 - First Aid Measures

**Inhalation:** Remove person to fresh air. Drink water and blow nose to clear airways. If breathing difficulty persists, seek medical assistance.

**Eye Contact:** Flush eyes with plenty of water for at least 15 minutes, lifting the lids to ensure contact with all tissue of lids and eyes. Seek medical attention if irritation does not subside.

**Skin Contact:** Not hazardous when contacted with skin. Rinse with mild soap and water.

**Ingestion:** Not hazardous when ingested. Do not induce vomiting. Drink 2-3 glasses of water. Never give fluids to an unconscious person. Seek medical attention if symptoms develop.

**Section 5 - Fire-Fighting Measures**

**Flash Point:** Non-Flammable  
**Flash Point Method:** NA  
**Burning Rate:** NA  
**Auto-ignition Temperature:** NA  
**LEL:** NA  
**UEL:** NA

**Flammability Classification:** NA  
**Extinguishing Media:** Use extinguisher applicable to surrounding fire.  
**Unusual Fire or Explosion Hazards:** None  
**Fire-Fighting Equipment:** Fire fighters should wear NIOSH approved, positive pressure, self-contained breathing apparatus (SCBA) and full protective clothing when fighting a fire as appropriate.

**Section 6 - Accidental Release Measures**

**Spills:** Wear dust mask as needed. Vacuum up powder using a vacuum equipped with a HEPA filtration. Use sweeping compound or wet product to prevent dust generation if sweeping up. Place spilled material into a clean container and cover. Wash down spill area.

**Section 7 - Handling and Storage**

**Handling Precautions:** Review MSDS before use. Avoid inhaling dust. Keep dust conditions to a minimum. Keep container closed when not in use.

**Storage Requirements:** Keep material in a dry, cool place.

**Section 8 - Exposure Controls / Personal Protection**

**NOTE:** HMIS PPE codes shown on the label in section 3 are maximum expected protection. More or less protection may be appropriate depending on the conditions of use. Each user must determine the appropriate code based on their use as recommended by the producer of the HMIS label.

**Engineering Controls:**

**Ventilation:** Provide general or local exhaust ventilation systems to maintain airborne concentrations below OSHA PELs and other occupational exposure limits. (Sec. 2). Local exhaust ventilation is preferred because it prevents contaminant dispersion into the work area by controlling it at its source.

**Administrative Controls:** Keep container closed when not in use. Avoid creating dust conditions.

**Respiratory Protection:** Respiratory protection is needed if exposure levels are exceeded. Respirator must provide the appropriate protection factors based on exposure levels. A NIOSH-approved P100 Respirator is suggested when needed. Respiratory use by employees is regulated by OSHA under 29 CFR 1910.134.

**Protective Clothing/Equipment:** Goggles are recommended to prevent eye contact. Gloves are not required.

**Other precautions:** keep out of reach of children and animals.
